

Share Your Story

One of the greatest gifts we can give each other is hope. As parents and caregivers of children and youth with disabilities, reading a story that highlights the successes of other families is so encouraging! Your story may be the lifeline that will give another family the strength to keep trying, reach higher, or try something new!

We want to give you an opportunity to share your success stories with other families through our website. If you have used strategies that you learned at a STEP workshop or through working with STEP that helped you feel more confident, increased your skills, enabled you to be more effective at an IEP meeting, or helped improve outcomes for your child, and you would like to share that with others, send it in!

Don't forget to send pictures. Everyone loves pictures! The picture included here is Cody Jennings with his friends when he was finally able to stand up with them using his Permobil! His mother learned the importance of inclusion through STEP!

Send your pictures and stories in electronic format (Word or PDF) to information@tnstep.org with the subject line of SHARING MY STORY. By submitting content to STEP you are granting permission for content and photos to be used on STEP's website and publications.
