What Does STEP's 30th Anniversary Mean to You!

For 30 wonderful years we've heard countless success stories about students and families who have proven that with a positive attitude, and a little support from STEP, they can really get things done!

We're always looking for more of these great stories to tell! Please share your success stories with us along with photos of your fabulous sons and daughters -- then and now -- so that we can continue to inspire other families across Tennessee.

STEP is celebrating 30 years of educating families/caregivers and creating a brighter future for children and youth with disabilities, special health care needs, and mental health needs. Please consider helping STEP continue for the NEXT 30 years! With your monetary gift, we can reach more families who might need and benefit from our services.

What's Your STEP Story?

Gina and Bernie's Story

I went to my first STEP Basic Rights Workshop 18 years ago. It was the same day as the meeting to transition Berns from TEIS to the local school system. I didn't know much about special education, but I knew I needed help navigating the system for my kiddo.

I left that evening with my Blue Parent Manual and the knowledge that my role in Bernie's educational planning was considered just as important as anyone else sitting around that IEP Team table.

Bernie's grown a whole lot in those 18 years and we've learned a bunch together along the way. At each decision point, we've turned to our Parent Center for information, training, and support.

We sure do love STEP!
